SLO/Objective & Course Outline	Wednesday, July 29, 1-4 pm	LAC L-252 2 <sup>nd</sup> floor of library	Computers provided or bring a laptop

**SLO/Objective & Course Outline:** This is a hands-on workshop that will help you finalize the course outline SLO task that was begun in May. Differentiating SLOs from course objectives is the first step for all courses as we implement the outcomes assessment process. All faculty are welcome.

**Course SLO Assessment:** This informational session will present ideas and considerations for course level assessment of SLOs. This is the second step in the outcomes assessment process. All faculty are welcome.

**Rubrics – An Outcomes Assessment Option:** Rubrics translate an assessment’s standards and criteria into some sort of chart. They can be used to classify virtually any product or behavior. This informational session will present considerations and formats for rubric development. **All colleagues** are welcome.

**Surveys – An Outcomes Assessment Option:** Surveys are assessment instruments that measure a characteristic or attitude for identified values or beliefs. This informational session will present considerations and ideas for survey development. **All colleagues** are welcome.
